

Production Planner/Analyst

Promega Corporation is seeking an experienced Planner/Analyst to join our team!

At Promega, our Production Planner/Analysts are lead planning, scheduling, coordinating, and approving products through the production cycle. Planner/Analysts are responsible for determining the quantity and due date for assigned materials as they plan, release, schedule, and coordinate production orders or purchase requisitions. They also evaluate and analyze planning parameters to provide the optimal balance of inventory turns, customer service and unit cost.

Ideal candidates will have:

- Bachelor's degree in Production and Operations Management or equivalent with a minimum of 8 years related experience
- A minimum of 5 year of Production planning and inventory control experience using DRP or MRP in an ERP system
- Experience using BPCS and/or SAP
- APICS certification
